# Design Process

- Stock Images

- FONTS FROM GOOGLE

# Challenges

- Nothing, everything went smoothly and there were no problems.
- Just kidding.
- There were lots of challenges.
- See next slide

Also, the little things.

# Ethical Issues

- Colour scheme might not be great for those who are colourblind
- People will look at my site and think “oh wow, that is really cool” and then get jealous.
- Accessibility could be improved across the board.

# Favourite Parts

- When I spent ages on making something work and then finally it did.
- Making the background images fixed.
- Figuring out the cool things I can do with CSS.
- Choosing when to take lunch.
